Prosecutor Begins Final Argument This Afternoon, Expecting to Finish at 6 O'Clock This Evening—Village Marshal in Medina County, Ohio, On Stand in Own Defense.

(ASSOCIATED PRESS TELEGRAM) Waukegan, Ill., July 14.—There was said to be every prospect at noon today that the case of Will H. Orpet, on trial for the murder of Marion Lambert, would be in the hands of the jury tonight, a day earlier than had been expected.

James H. Wilkerson, chief of Orpet's counsel, made the final argument for his client, asserting that the element of reasonable doubt loomed large in every circumstance of the case, except where they had been absolutely removed by the defense.

David R. Joslyn, of the prosecution began speaking at the afternoon session. He said he expected to finish before six o'clock. This would consign the case to the jury by seven o'clock.

BLAKESLEE TOOK STAND TODAY IN TRIAL FOR MURDER.

(ASSOCIATED PRESS TELEGRAM) Medina, O., July 14.—Henry L. Blakeslee, village marshal, took the stand in his own behalf today in his trial for the murder of Night Watchman John H. Gates. He occupied the stand a half hour prior to the noon adjournment and was expected to complete his testimony this afternoon.

Blakeslee testified to the fact that enmity between himself and Gates dated from the time he became a candidate last fall for marshal against Gates and grew following his election over Gates, who had previously held the office for many years. Blakeslee said that Gates, who weighed 225 pounds, would run against him in the street and push him off the sidewalk when they met. Blakeslee weighs 135. He said that Gates had several times spit on him and then jumped out at him in the dark, with the evident intention of frightening him. He said he never exchanged words with Gates at such times, however.

Prior to Blakeslee being called the defense recalled Clyde Harvey, who told of hearing Gates tell another man that he proposed to "get" Blakeslee if the latter didn't treat him differently.

Frank Dunn of Weymouth was also called to rebut testimony of state witnesses that Blakeslee had once threatened to kill him. Dunn testified for the state that Blakeslee's reputation as a peaceful man was good. The state's objection to his telling of a fight he once had with Blakeslee was sustained and this evidence did not go in.

LARGEST

SINGLE PAYMENT OF TAXES EVER MADE BY UTILITY CORPORATION.

Cleveland Street Railway Company Pays Lump Sum of Nearly Million Dollars.

Columbus, July 14.—The payment of a lump sum of nearly \$1,000,000 in taxes by the Cleveland street railway company, said to be the biggest single payment of taxes ever made by a public utility operating in any municipality of Ohio, today came to the attention of the state tax commission, which for two years had been fighting in the courts for payment of taxes.

The commission regards it as the most notable legal victory and vindication in its history. The franchise of the railway company in Cleveland provides that whenever the city falls below six per cent, the railway company has the right to raise its fare automatically above the normal of three cents. In the belief that a high tax valuation on the company would endanger the three-cent fare, the city of Cleveland joined with the company in resisting in the common pleas and appellate courts the collection of the taxes. Both courts held against the company.

The commission has decided to stand pat on the valuation of \$12,153,640 for this year upon the Cincinnati and Suburban Bell Telephone company, an increase of \$1,123,000 over last year. It is the contention of the commission that heretofore this ability has not been valued high enough for taxation purposes.

COMMANDER-IN-CHIEF OF FRENCH ARMIES CONGRATULATES THE HOLDER OF HILL 304

Left to right: General Joffre, General Bazelaire and General Humbert.

After Dead Man hill none of the Verdun heights has been the scene of fiercer fighting than the now famous Hill 304, where for many weeks General Bazelaire has held out against the hellish fire of the crown prince's big guns and the massed attacks of his armed hosts. The defenders received their reward the other day, when General Joffre, accompanied by General Humbert, went up to the front line to congratulate General Bazelaire and his men.

Denial of Cruelty Charges by Former Superintendent of Athens Co. Children's Home

(ASSOCIATED PRESS TELEGRAM) Athens, O., July 14.—Denial of charges said to have been made by Charles V. Williams, special agent of the Child Welfare department of the Ohio State Board of Charities, that instruments of barbaric torture similar to those used in the middle ages had been employed at the Athens county children's home, was made here today by former Superintendent Geo. E. Beasley, who resigned two weeks ago after an investigation of the home by Williams. Beasley's denial was seconded by the trustees of the home. Beasley said he resigned because he didn't care to stay in Athens any longer, and admitted that he and the trustees had clashed with Williams during his incumbency, chiefly over the matter of yearly visitation of children placed by the home in private families. He said this visitation, which is required by law by him or the trustees, had not been observed, because there were no funds for the purpose. He said the chains which had been found at the home by Williams were used by him four or five years ago on some incorrigible boys who had been sentenced to Lancaster industrial school, being employed to control the boys until they could be taken to Lancaster. He said they had not been used since and denied that he had ever beaten any children at the home. Beasley had been superintendent of the home nine years. He is 50 years old. The trustees are: O. B. Sloan, retired capitalist; E. R. Lash, postmaster; A. F. Bethel, former probate judge; Henry Finsterwald, farmer. They all said today they would back Beasley in any action taken by state authorities.

TEXAS MILITIA EXCHANGE FIRE WITH MEXICANS

(ASSOCIATED PRESS TELEGRAM)

San Antonio, July 14.—To O Company, Second Texas Infantry, came the distinction today of being the first of the national guard to exchange shots with Mexicans, when they prevented a raiding party from crossing the Rio Grande near Donna, Texas.

Six armed Mexicans, attempting to enter American territory at 3:00 o'clock in the morning, were detected by outposts. They were ordered to halt, but continued advancing. The Texans opened fire. The fire was returned but discontinued after a minute, the Mexicans hurrying back to their own country.

None of the Americans was injured and it is believed none of the Mexicans was hit.

WOMAN STUDENT WILL ENROLL AT ADVANCED AGE 85

Berkeley, Calif., July 14.—Probably the oldest college student in the United States, Mrs. Amy D. Winship, aged 85, will soon be enrolled at the University of California. It became known here today. She is coming from the University of Wisconsin, where she was a student during the first part of this year.

Mrs. Winship, who laid the foundation of her education in a log school house in Illinois in 1847, started her university career several years ago at the Ohio state university. Recently she specialized in botany, physics and international law.

HEAVY ARTILLERY FIRE

Is Being Continued By Teutons In Verdun Region, But This Has Not Been Followed Up By Any Infantry Assaults—Russians Pause In Their Drive In the East.

(ASSOCIATED PRESS TELEGRAM)

London, July 14, 12:25 p. m.—At daylight this morning the British resumed the offensive north of the Somme, attacked the German second line defense and according to the report of their commander, General Sir Douglas Haig, succeeded in penetrating them on a front of four miles. Press dispatches from the front add that the villages of Bazentin-Le-Grand and Longueval, north of Montauban and the remaining portion of Trones woods were taken by the British. While it was expected the British would not allow a great length of time to elapse before continuing their operations, it was hardly believed the second German line would be attacked after only one day of artillery preparation; for it was only the day before yesterday that they completed capture of the first line in the region between Hardecourt and Ovillers. The direction of the attack too was something of a surprise, for instead of pushing on toward Combles General Haig chose to attack the flank of the Germans who faced Contalmaison and Ovillers and those who still occupy Pozieres. The advance Longueval and Bazentin-Le-Grand if accomplished, gives the British possession of other important roads running in various directions, which have been a great help to the Germans in supplying their army directly south of the Ancre valley.

News of the British success was received in London with the greatest enthusiasm. It has given added weight to the request of the government to workmen to forego the August holidays so that the army may be kept well supplied with munitions. The supplies already on hand must be greater than was generally believed, else General Haig would not have been able to continue his offensive without an intermission.

There was no news this morning of important developments on the remainder of the western front but at last accounts the French were preparing to resume their offensive south of the Somme, while the Germans were still hammering at the defense of Verdun. The opinion is held in France however, that continuation of the Somme battle will compel the Germans to slacken their efforts at Verdun which now have been in progress nearly five months. The French estimate the Germans lost 12,000 men in counterattacks on Contalmaison.

The Russians have made no notable advance on any part of their front since they gained the Stokhod river, where the struggle continues desperately. The right bank apparently has now been cleared of Germans but it is not known here whether the crossings made by the Russians have given them a firm footing on the left bank. FISHERMAN GETS ONE OF THE SHARKS THAT ARE TERRORIZING JERSEY SHORE

E. F. Warner and man-eating shark he caught on Jersey shore.

For the first time in the history of the Jersey coast, man-eating sharks are terrorizing the people there, who are in the habit of bathing in the ocean. Several persons have been killed by these big fish, and an effort is being made to exterminate them. Photo shows E. F. Warner and a shark he shot to death at Beach Haven, N. J., a few days ago.

Shark Hunting Along Coast Becoming the Popular Sport; Causes of Their Appearance

(ASSOCIATED PRESS TELEGRAM)

New York, July 14.—Shark hunting or fishing suddenly has become a popular sport along the New Jersey coast in the waters of New York bay and along the ocean side of Long Island as a result of the recent raids by man-eating monsters from southern waters, which have killed four persons. Reports of the sighting or killing of sharks out along the shore reach the city almost hourly and some fishermen are bringing in the big fish they have killed to prove the truth of their stories. Only a few of these, however, are described as man killers. A passenger on a steamer is authority for the statement that he saw two sharks in the Hudson river near Tarrytown. One shark was killed near Fairfield, Conn.

Thousands of persons who have been driven to the beaches by the hot wave fear to enter the waters in the vicinity of New York since sharks killed a man and a boy in Mattawan creek, New Jersey, on Wednesday.

Shark hunters at Mattawan creek believe they have this shark penned up in the creek behind a series of wire nets, which have been strung across the creek at intervals from its mouth to the scene of the tragedy. 16 miles from the entrance. Men armed with shotguns, rifles and harpoons patrolled the waters of the creek again today. Some of them said they had seen five of the big fish near the point where W. Stanley Fisher and Lester Stillwell were killed.

They made preparation for a shark drive at noon today when the ebb tide will leave only a few feet of water in the creek. Dynamite will be exploded again in an effort to stun the sharks and bring them to the surface. Joseph Dunn, the 10-year-old boy whose leg was terribly torn by the invader of Mattawan creek, is in a hospital in New Brunswick, N. J. Little hope is entertained of his recovery.

Opinions of experts differ widely as to the cause of the presence of these dangerous sharks in the cool waters of this coast or why they come so near the beaches. John T. Nichols, assistant curator of fishes of the American Museum of Natural History, who went to Mattawan to investigate the tragedy there, said he believed the killing was done by a white shark or tiger shark, both of which are warm water fishes and rarely seen north of Cape Hatteras. Some of these are said to attain a length of thirty feet. Fishermen, however, believe that the man-eaters are of the ordinary type of sharks which have made ravenous by the scarcity of food.

At low tide the body of Lester Stillwell was found in Mattawan creek about 400 feet from the spot where he disappeared after being attacked by a shark. The body had been bitten nearly in two at the waist line.

WOMAN LOCKED IN HOTEL ROOM; JEWELS MISSING

Memphis, Tenn., July 14.—Locked in a hotel room while she slept, Miss Billie Bartlett of Chicago, a beautiful brunette, was robbed of \$4,000 worth of diamonds, she alleges, by Sigmund Weiner, member of the famous Weiner family, members of which have been seen often here on the vaudeville stage.

The alleged robbery took place last Sunday night. Every effort was made to keep the affair quiet. Miss Bartlett had Weiner indicted by the grand jury yesterday on charges of larceny.

"I loved that man," Miss Bartlett said. "He promised to marry me. He brought me here from Nashville last Wednesday. Every day he promised to marry me. He always found some excuse until last Sunday night."

Then he locked me in my room and left, taking all of my jewelry and some of my clothing.

"I believed I was to be a bride. I met Weiner some years ago. He was on the stage at the time. He was such a dear little fellow that I loved him the moment I set eyes upon him."

R. R. OFFICIALS HAVE NO REPORT OF THE SHOOTING.

(ASSOCIATED PRESS TELEGRAM)

Bucyrus, O., July 14.—Pennsylvania railroad officials here today stated they had heard nothing of the shooting of observation platform passengers on the Broadway Limited near this city last night. They scoffed at a story to the effect that an attempt had been made to hold up the train, declaring that if shots had been fired they probably had been fired by tramps.

The train in question was east-bound, and no report of the incident was made here.

HURRY

Orders for Ohio National Guard Units Received Last Night

THREE ARE READY FOR CALL

Movement Toward Border May Begin Tonight

COL. VOLLRATH PROTESTS

That His Command is Improperly Supplied With Shoes and Accoutrements But is Assured That Additional Equipment Would Be Issued Men Upon Reaching the Border.

(ASSOCIATED PRESS TELEGRAM)

Camp Willis, Columbus, July 14.—Indications here today were that the Eighth and Fifth regiments of the Ohio National Guard and the Ohio squadron of cavalry may receive orders within twenty-four hours to enter in for the Mexican border.

Major Robert W. Mearns, chief federal mustering officer at the camp today notified central army headquarters at Chicago that these units of the Ohio guard are equipped with "arms and accoutrements" and that they will have clothing today.

Guard officers, asserted Major Mearns notification, resorted from "hurry up" orders received by him last night. Although the report did not state that the three Ohio units were "reasonably ready" for service, officers gave that meaning to the message and declared they believe "moving orders" will be received late today or tomorrow.

Rumors were rife about camp today that Camp Willis is to be made a concentration camp and that Michigan militiamen may be brought here for seasoning. Regular army officers and brigade commanders, however, declared they knew nothing officially of such a plan.

Adjutant General Hugh later returned to camp and denied emphatically that troops from other states were to be brought to Camp Willis. He admitted he was in Michigan yesterday, but he said he had not gone there on any such mission.

Other officers said that a plan was under way to unite two companies of engineers from Michigan with four companies of engineers from Cleveland, thereby making a complete regiment. It was said that in event of the consummation of this plan, Lieutenant Colonel John R. McQuigg of Cleveland will be colonel of the new regiment and Major F. H. Banning of Cleveland Lieutenant Colonel. One of the majors of the regiment would be a Michigan man and the other would be Captain Fred Trojan of Cleveland.

In notifying his departmental commanders of the readiness of the Ohio units, Major Mearns included information regarding arrangements for the transportation of the troops. This, however, was not made public.

"If orders came I would take my men south though they were badly lacking in clothing, but I should dislike very much moving men from camp improperly supplied with shoes and other articles of wearing apparel when it has been known that great difficulty has been experienced in supplying these things to the state troops already down there," declared Colonel Edward Vollrath of the Eighth regiment today. Whether his objections against being reported "reasonably ready" resulted in the avoidance of that term in Major Mearns' telegram is a matter of speculation among the officers.

Colonel Vollrath upon learning that only one set of wearing apparel had been issued to the men, declined to have federal mustering officers report the regiment "reasonably equipped" for border duty.

Federal officials say it was expected that additional equipment would be issued to the men when they reached the border. This was not Colonel Vollrath's understanding, however, and he asked that the regiment be held here a while longer. It probably will not get away now until Monday.

SOLDIERS ROB A BAKERY; FORCED TO PAY DAMAGES

Eric, Pa., July 14.—When the New York Central train carrying the 71st New York regiment to the border, stopped here this morning, hundreds of militiamen dashed from the train and seized the entire contents of a bread wagon standing near the depot and also took all the fruit from a vendors cart. Then they rushed across the street to a small grocery store and rifled it. Officers shot at the soldiers and sent them back to the train. The soldiers then returned to the train and continued their journey. The bakery and grocery store owners complained they had not been paid for the goods taken. The train arrived at the border at 10 o'clock yesterday morning.

DR. CLARK B. HATCH, EYE, EAR, NOSE AND THROAT SPECIALIST

Of West Church street, since his graduation from Denison University at Granville, in 1901, has spent the intervening time in a close pursuit of special study in his particular line of the medical profession. Now for the first time since his school days, Dr. Hatch is planning a regular vacation for himself and family for this summer instead of taking a specialist's course at some institution. After graduating from Denison University, Dr. Hatch entered Denison University, graduating from this school in 1904. He entered O. M. U. at Columbus and graduated from this school in 1904. For 18 months he served an internship at the Protestant hospital at Columbus and then spent one year in the office of Dr. John E. Brown, eye, nose, ear and throat specialist at Columbus. From Columbus Dr. Hatch went to Philadelphia where he served six months' internship in the Will's eye hospital. While serving his internship at the Philadelphia hospital, Dr. Hatch attended the Philadelphia post-graduate school. He came to Newark in 1907 and opened his present office in West Church street. Since coming here he has studied each year at the various schools, Illinois Eye and Ear Infirmary, Chicago Polytechnic, Chicago Post Graduate and the Manhattan Eye, Ear, Nose and Throat institutions. He is fraternally a member of Phi Gamma Delta, and a charter member of the medical fraternity of the A. K. K. of Columbus, and Newark Lodge B. P. O. MAZDA WILL OPEN IN THE NEAR FUTURE

Mandel Brashear, the well known clothing clerk at the Rutledge store, today purchased the Mazda theater at public sale and will open it in the near future with a splendid picture service.

Mr. Brashear will give the theater his undivided attention and intends placing the house on its former popularity basis. The new proprietor is a pleasant young man, is a hustler and no doubt will make the Mazda one of the leading picture houses of the city.

The policy of the Mazda will be to book only the best attractions, which can be secured and cater to all lovers of the silent drama. After several points have been decided upon by the new management further announcements will be made.

The operation in the Caucasus is becoming more and more important. After suffering losses in their counter-offensive, the Turks are now being pressed back toward Baidur and Erzincan, while the Persia the Russians have brought up reinforcements to meet the Turks who drove them from Kermanshah.

The Associated Press gives out the following concerning the war situation in European fields:

Renewing their great offensive in northern France at daybreak today, the British broke into the German second line in the Somme region along a four-mile front. This offensive was still in full swing when the British official statement was issued shortly before noon in London. The villages of Longueval and Bazentin le Grand were officially reported captured as were the capture of Trones woods and a chain of around east of Contalmaison.

The force of the drive apparently was exerted chiefly to the northeast in a push toward the British objective of Bapaume along the southern flank of the curving German line in the Montauban region. Longueval lies 1-2 miles northeast of Montauban and is approximately six miles from Bapaume on the main road between that city and Maricourt, while Bazentin le Grand lies slightly to the west.

In the Verdun region the Germans have so far not followed up their bombardment on the Fort Souville region by further infantry assaults. Heavy artillery fire in this sector is being continued.

German activity was noted north of the Aisne where attempted attacks were stopped by French machine gun fire near Villers aux Bois and on the Valenciennes plateau.

Too Late For the Boats.

They tell a story about one of the New York to Boston boats. This boat quivered from stem to stern one morning and, with a harsh, grating sound, came to a full stop.

A man in a suit of fancy pajamas ran wildly up on deck.

"Good gracious, captain," he said, "have we struck something?"

"Call in your self," the captain answered.

"Cap'n, we're sinking! I can feel it! Shall I get into a life preserver?"

"You are fast the need of a life preserver now, my poor fellow," the captain said.

"The boats, then?"

"The boats, then! Oh, cap, ain't you going to lower the boats?"

"Too late," the captain answered solemnly. "It's too late for the boats now."

"Too late? Too late?"

"Yes," said the captain. "We've done all we can for you, and you'll have to look out for yourself from now on. You see, we've just tied up to the dock."

ASHBROOK

WOULD NOT BE PARTY TO FORD BARREL GRAB AND WAS ABSENT.

But Majority of the Members of the Committee Prepared Bill for Presentation.

Washington, July 14.—Liberal appropriations are distributed to the Ohio Valley States in the omnibus building bill, which was completed yesterday, and which will be reported to the House unless something now unexpected should prevent. Until the very last Representatives Ashbrook and Mooney of Ohio, carried out their resolution that they would not be participants in such a grab at a time when the government was finding it necessary to issue bonds.

Consequently neither Ohio member of the committee was present when the bill underwent its final revision. The bill contains some meritorious provisions which are expected to make the measure as a whole more palatable.

The reporting of the bill has been delayed pending the return of Representative Cantrell from Kentucky. Cantrell was chairman of one of the large sub-committees and had not made his report of items passed on by his sub-committee affecting 10 or 11 states. Cantrell entered his appearance when the full committee reconvened yesterday.

He had spent the early forenoon with Secretary of the Treasury McAdoo and he had a message to convey. McAdoo told him that an omnibus building bill at this time, under present state of national finances, due to the enormous preparedness expenditures would be absolutely unjustifiable and indefensible. This sort of message from the President's son-in-law was construed as an indication that the President would veto the bill.

Cantrell told the full committee what McAdoo had said, and it created a sensation. The members of the committee did some plain talking about a Cabinet member butting into their affairs, and Cantrell talked with equal plainness on the reply. Cantrell said that formerly he was in favor of an omnibus building bill, but that as expenditures for other purposes mounted higher he became convinced it would be a mistake to add to the enormous total \$10,000,000 more for public buildings which the bill probably will carry by the time the Senate is through with it.

The members of the committee desired their "pork" and they had no patience with the convert, Cantrell, and less with Secretary McAdoo. They arose in their wrath and read the riot act to both gentlemen. Cantrell stood his ground and moved that the motion adopted at a previous meeting, that the committee report an omnibus bill to the House, be reconsidered.

The 13 members of the committee were present. Three, Cantrell himself, Thelan, of Massachusetts and Elston of California, voted for the Cantrell resolution. Nine members voted against it. One voted present. Cantrell left the committee room and went to the baseball game, where he spent the afternoon. The committee went ahead, minus Cantrell, and completed the bill.

AUTO ACCIDENT WAS AVERTED BY NARROW MARGIN

What almost resulted in a serious accident occurred at 9 o'clock Thursday night when an east-bound Ford automobile went off the pike three miles east of the city, tearing one of the front wheels off the car and bending the radius rod. None of the occupants of the car was injured.

When the accident occurred some employees of the Steward-Alward Furniture company were returning to the city from a fishing trip in the company's Ford car. The occupants of both cars stated that they were blinded from the lights of the Ford and that the machine going east, the occupants of which are unknown, was turning to the side of the road to avoid an accident. The machines stopped 12 feet from each, just in time to avoid a collision.

Our Boys and Girls

Juvenile fashions were never so delightful or so varied as they are at the present time. Picturesque styles are the cry of the moment, and it is a pleasant cry to hear, for no one is so suited to carry out the picturesque idea so well as the little girl. For instance, who can deny the beauty of a small face surrounded by golden curls, the whole framed by a golden border of the picturesque order? Then, too, there are the coats in Mother Hubbard style developed in tan cashmere, the skirt shirred on to a narrow yoke. Small round buttons covered with the material from the trimming, beneath which the coat is fastened with snap fasteners.

Another coat is in pongee silk. The body of the coat is gathered to a narrow yoke and joined by a wide belt to a full gathered skirt. Torpedo-shaped buttons of white, with centers of pink fasten the yoke and belt.

Bootes and socks are an important part of the small girl's wardrobe. Just as her mamma's appearance is spoiled if she does not wear well-cut footgear, so is the little girl's, only in a greater degree. They must be trim and pretty if the little girl is to look well dressed. Of course, the half socks have ousted the long hose, and they are so attractive.

CLARKE NAMED BY PRESIDENT TO THE BENCH

OF THE SUPREME COURT TO SUCCEED FORMER JUSTICE CHARLES E. HUGHES.

Cleveland Man Several Times Has Been Candidate for United States Senator.

(ASSOCIATED PRESS TELEGRAM)

Washington, July 14.—John H. Clarke, United States district judge at Cleveland, was nominated by President Wilson today as an associate justice of the Supreme court, to succeed former Justice Hughes, the Republican nominee for the Presidency.

The appointment of Judge Clarke following the resignation of Mr. Hughes leaves New York state without representation on the supreme court. Justice Pitney, however, comes from New Jersey, which is of the same district. The political complexion of the court is not changed, a majority remaining Republicans. The President confidentially expects that Judge Clarke will be confirmed during the present session of Congress in order that he may begin the study of cases pending before the supreme court before the convening of the court in the fall.

CLARKE PROMINENT IN OHIO POLITICS; RAN AGAINST HANNA.

(ASSOCIATED PRESS TELEGRAM)

Cleveland, July 14.—John H. Clarke, who has been selected by President Wilson to succeed Charles E. Hughes as associate justice of the United States Supreme court, is 59 years old and a bachelor. The only office he has ever held is the United States district judgeship in the Cleveland district, to which he was appointed two years ago this month by President Wilson.

However, Judge Clarke has long been a leader in the Democratic party in this city and state. He was several times a candidate for United States senator, being once a candidate against the late M. A. Hanna. His candidacy two years ago was nipped by his appointment to the bench.

Judge Clarke was born at Lisbon, O., Sept. 18, 1857. His father was prominent as a lawyer and a Democrat. Clarke attended the Western Reserve university here, and was graduated in 1877. He was admitted to the Ohio bar the following year and two years later moved to Youngstown where he practiced law until his removal to Cleveland 19 years ago.

After coming to Cleveland, Clarke was for a number of years chief counsel to the Nickel Plate railroad and as such came to be termed a "corporate lawyer" by his political enemies. His friends, however, have contended that his railroad connections have in no way bound him to the "interests" and point to the fact that while he was still attorney for the Nickel Plate during his campaign for the senate against Hanna, he urged the enactment of the two-cent railroad tax law and other legislation that in the days was regarded as even more radical than at present.

Judge Clarke is financially interested in the Youngstown Vindicator and has always manifested a deep interest in newspaper work and all public affairs.

Milady's Boudoir

Artistic Perfuming.

The woman who leaves a trail of strong scent behind her footsteps and no other reason should be needed for the discouragement of the habit than that founded on courtesy, which forbids us to offend our neighbor. Heavy perfumes are as displeasing as the smell of strong soap or deodorants. The thing that pleases the olfactory nerve most is a delicate suggestion that a woman's clothes have been near some agreeable powder or sachet in a drawer. You can buy the most fascinating scented or you can buy them unscented and put in your own perfume (which must be delicate), and these bags if laid away among your lingerie in your dresser drawer, will give just that subtle suggestion of "some sweet flower" that labels the wearer as "dainty."

Don't mix perfumes. Your toilet water, face powder, and perfume must be of the same brand, and brand. Few women are constant in their perfumes. They try everything and mix odors indiscriminately. To be true to one delicate odor is to be individual. I know a girl who affects rose perfume at all times, and I never get the scent of a rose but I think of her. She is cautious in the use of the rose perfume, but she uses rosewater in her daily bath and a drop or two on her hair. She keeps her dresser drawer scattered with rose leaves from her rose jar, and because she is consistent in the use of her favorite odor she is a delight to meet always.

AUTOMATIC

PHONE SERVICE SOON WILL BE INSTALLED ON ALL FARMERS' LINES.

Operated by the Newark Telephone Company—Only Awaiting Completion of Granville Automatic Service.

Within three months all of the farmers' lines of the Newark Telephone company, which are connected with the Granville and Newark exchanges, will have the automatic phone service, and the automatic service, which is now being installed in Granville, will be completed in thirty days. According to R. W. Smith, president of the company, there is only one other automatic phone service for farmers in this state, and the service which will soon be installed, will be the best of any in the state of Ohio.

When the installing of the service is completed any number which is connected with the Granville and Newark exchanges can be called on the automatic dial. Work will be commenced on the installation of the automatic service in Granville as soon as the automatic service will be made at this time.

BLAIR MOTOR TRUCK COMPANY

Declares Dividend and Elects New General Manager—Mr. Wilkins To Take Care of Sales.

The directors of the Blair Motor Truck company at their meeting yesterday afternoon declared the regular semi-annual dividend of 3 1-2 per cent on preferred stock.

At this meeting the management reported a number of truck sales in Ohio and Indiana with prospects for increased business during the next few months. Some additions to the sales organization have been made recently. Recent severe tests of the Blair trucks in the East, along side machines of other make showed wonderful results and are opening the way to increased business.

Mr. R. L. Wilkinson offered his resignation as president and general manager of the company to give his entire time to the sales department of the business and the directors unanimously elected Mr. F. L. Swaberg of Cincinnati to become the general manager of the company.

Mr. Swaberg for twelve years was secretary and works manager for the D. T. Williams Valve company of Cincinnati and was also mechanical engineer for the Lunkenheimer company of Cincinnati manufacturers of steel automobile specialties. Mr. Swaberg who came to Newark last week to look over the proposition, has accepted the position and is now on the job.

The installation of some new machines and the new automatic sprinkler equipment have made the Blair plant an ideal factory. A cost system has been employed and the company now has on hand a large supply of material for truck construction.

STORM SWEEPING

(Continued from Page 1.)

had been reported from along the coast early today.

A lineament reporting to the local telephone office said the wind still was high at Charleston this morning, but its velocity was decreasing. He said no street cars were running, that there were no lights and that telephone service was disabled. Before he could be questioned as to casualties or other loss, the wire was lost.

Meagre reports from Charleston indicate that only one life was lost there, that the water front was inundated by very high tides and that damage had been done to shipping, public utilities and much private property. A negro was reported drowned off Tybee, near Savannah.

At Charleston hundreds of island dwellers could not be reached by boat or wire but it is believed they are safe as they had ample warning of the approach of the storm.

Hundreds of trees were blown down and resulted in crippled trolley and wire service. Ferry service was affected by the heavy sea and high tides.

WIRELESS ORDERS TO EVERY VESSEL.

Washington, July 14.—Wireless orders were sent to the coast guard cutter Seminole off the North Carolina coast today to go to the rescue of the naval collier Hector, reported in distress forty miles southeast of Charleston, S. C.

Appeals to any vessels in the vicinity to go to the aid of the Hector were broadcasted by the navy radio towers at Arlington. Although navy officials do not believe the collier can be in a serious condition, reports from Charleston said she was thought to be sinking.

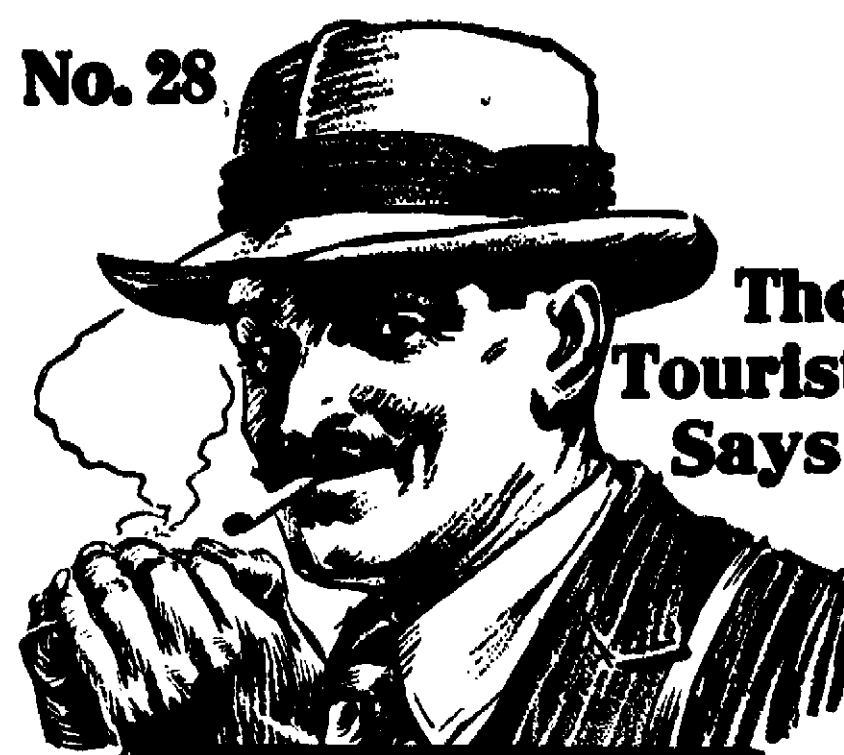

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

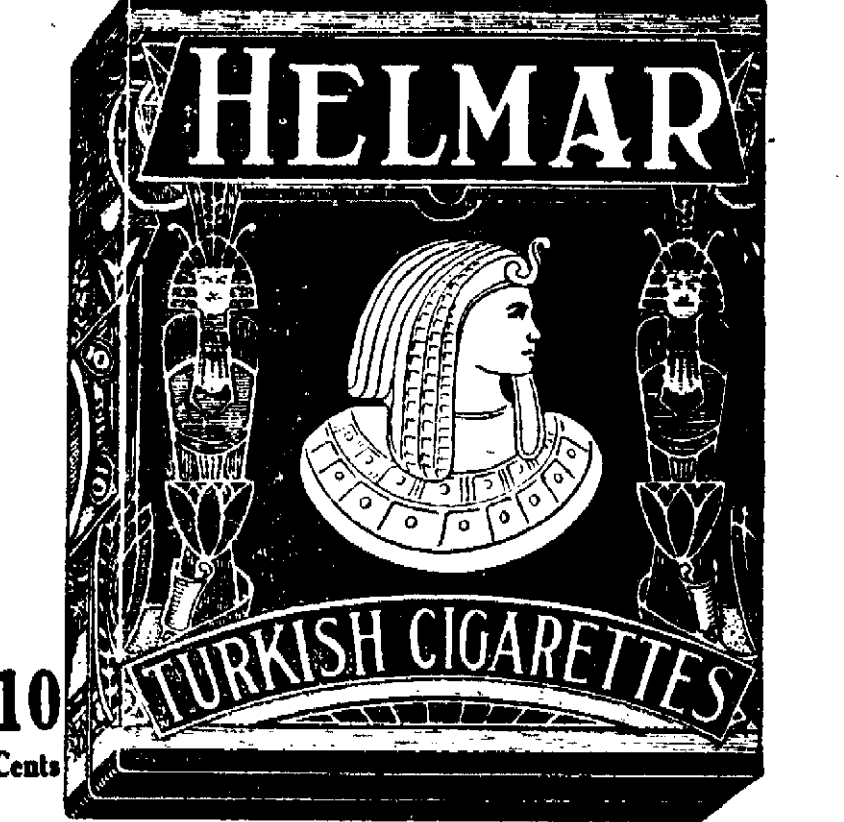

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed. As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." THERE'S A MORAL

WILL SPEND VACATION AT WEST BADEN

Robert A. White of this city and Al Ackerman of Columbus left early this morning for the West Baden Springs in Indiana. They drove through in Mr. White's car with Monte Barrett as the chauffeur, and will remain at the famous resort for ten days.

Mr. Ackerman is known all over the state owing to his interest in sporting events. He brought out and managed "Big" Mackey at Findlay, O., that gentleman being undefeated for a number of years. "Ackey" as he is called by his friends, managed several ball teams, promoted several big athletic events in northwestern

Ohio and never misses the world's series baseball championships, having come all the way home from Europe one occasion to be present for the games.

Mr. Ackerman at the present time is the owner of a stable of thoroughbreds and has shipped to the Empire track, where he will possibly start several of his promising youngsters. He has a colt which has shown record-breaking form and for which he has been offered \$10,000 cash, but prefers to keep it for the present. The Columbus man owns a handsome bungalow near West Baden, where he spends the greater part of his vacations.

NOTICE.

Thornville bus will make extra trip to Franklin Addition every afternoon. Will arrive at 1:30 p. m. Will go down Galloway avenue and up Prospect street, starting Saturday, 7-14-16.

JACK BISHOP'S HIGH DIVE AT BUCKEYE LAKE

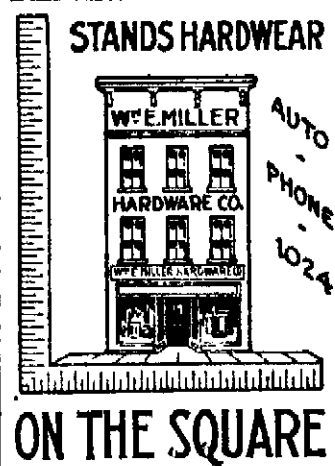

Jack Bishop, the famous Atlantic City high diver, has consented to remain over at Buckeye Lake park and give two exhibitions Sunday, one at 4 p. m. and the other at 8 o'clock in the evening. He will leap from a 75-foot pedestal into five feet of water.

In addition to the high dive there will be special music and exhibition dancing at both pavilions. Buckeye Lake park, the pleasure center of Ohio, is an ideal place in which to spend your vacation and the cottages are fast filling with people from all over the state and many large cities out of the state.

Due to the fact that most of the business houses of Newark are closed on Thursday afternoon, the management of Buckeye Lake park has made special arrangements with the Ohio Electric railway for the accommodation of the people of this city on that day. All cars leaving Newark for the lake at 2 and 3 o'clock on Thursday afternoon and all cars leaving the lake for Newark at 9:30

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

WARM WEATHER IS CONTINUING; MAY BE SHOWERS

The weather man is keeping his word and is handing out more samples of hot weather. Today the thermometer registered 92 at noon, the same as yesterday, with indications that the heat wave would continue for several days at least.

We are promised local thunder showers today with fair weather Saturday. Yesterday afternoon rain fell in torrents in East Newark flooding the streets in places, the sewers being inadequate to carry off the water. There was a downpour of rain at Buckeye Lake park and also at Granville.

A peculiar phenomenon was witnessed in East Newark at Cedar street. It poured rain east of that street at times making one believe that a cloudburst had taken place, while west of Cedar not a drop of rain fell. It tried awfully hard to rain in the down town business district and there was a slight fall of rain lasting for just a couple of minutes. A heavy rain, general all over the country would be welcomed by everybody.

HISTORIC CHARACTER DEAD.
(Associated Press Telegram)
Pittsburgh, July 14.—John M. Larimer, aged 96, who foiled the plot in 1860 to strip the Allegheny arsenal of ammunition and cannon in order to arm ports in confederate territory, the exposure of which led to the resignation of John B. Floyd, secretary of war in the cabinet of President James Buchanan, is dead at his home here. Death was due to old age. He was born here.

WARM PRAISE IS PAID TO LOCAL COUNTY OFFICER

C. V. Van Niman, field officer for the Boys' Industrial school at Lancaster, was a visitor in the city today. He states that there are now about 1,200 boys at the school and only five are from Licking county, where formerly there were always from 15 to 20.

The Lancaster man attributes the splendid record of the county at the institution to the efficiency exercised by Probate Judge Robbins Hunter in the conduct of the juvenile court. Mr. Van Niman states that the record of the Licking county juvenile court has been a matter of comment by state officials and has been pointed to as what can be accomplished by the exercise of due care and diligence.

Field Officer Van Niman also remarked that the youths from this county were exhibiting remarkable progress in their studies and in manual training, and the different industries which the institution promotes. He extends a cordial invitation to any one from Newark or Licking county to visit the institution at any time and assures them that they will be made welcome by the officers in charge of the school.

WOMAN'S PARTY TO HOLD CONFERENCE COLORADO SPRINGS

(Associated Press Telegram)
Washington, July 14.—The national executive committee of the national woman's party issued a call today for a conference to be held at Colorado Springs, August 13 to 15, to decide on measures to be adopted by the woman's party in the coming election to win national suffrage for women.

"Twelve suffrage states, controlling 91 electoral votes, contain more than four million women qualified to vote for president," said the call. The conference will consider what policy the woman's party, working independently of all political organizations, shall adopt in the coming election to obtain submission of the national suffrage amendment.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

You never can tell. It may be pure affection when a fellow acts like a gentleman.

What Would You Do, Mr. Consumer?

If you were the producer of a trade-marked article at a standard price and economic conditions the world over became so disturbed as to cause unprecedented advances in the cost of raw materials, thereby placing you in a position where you had to choose between reducing the quality of your product or raising the price?

Would you go into the market and buy a lot of cheap, shoddy material and turn out a product vastly inferior to your standard at the old price and attempt to make your customers believe that you were doing the impossible by keeping up your old standard?

OR—

Would you come out frankly and openly, explaining to the people the true state of affairs, showing them that rather than cheapen your product built up after years of hard and diligent effort, you would raise the price an amount sufficient only to cover the increased cost of production, and maintain absolutely your high standard of quality?

The above are not hypothetical questions based upon some imaginary state of affairs but truly outline a situation now confronting this institution.

uation now confronting this institution.

YOU HAVE OUR ANSWER—

We do not propose to lower the standard of our product and attempt to foist an inferior article at the old price upon those through whose loyal patronage and good will the success of this business has been built up.

Instead, we are going to cling steadfastly to our standard of quality and increase the price a sum commensurate with the increase in the cost of raw materials.

In order to give our friends and patrons due notice of the increase in price, we will continue to tailor clothes at our old price of \$15 up to and including August 31st.

Urges Everyone to Quickly Get on Water Wagon

Drink glass of hot water before breakfast to wash out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

Indian Remains.

Six expeditions from the American
Museum of Natural History at New
York will study remains of Indian
dwellings in the southwest this
summer. The practical man may say
this study has no value. He will
feel that the Indian has been a neg-
ligible factor in civilization, and that
his relics have nothing to teach us.

Yet study of the original posses-
sors of our soil is fascinating. To
those interested, any walk in the
open country, in sections once ten-
anted by the Red Man, is apt to show
traces of his life. The relics thus
gathered show what remarkable re-
sults in handicraft can be gained
without the white man's tools.

The white man has advanced far,
but in his advance has lost some
valuable aboriginal qualities. To
form a shapely spear head out of a
mass of stone or bone with only
primitive tools, must have taken a
degree of patience which the white
man has wholly lost. Thousands
upon thousands of beautifully
formed flint arrow heads of various
sizes and designs have been found
on Licking county's famous Flint
Ridge, in years gone by.

The Indian expeditions referred
to seem to be designed principally
to study Indian dwellings. It is
indeed remarkable that a race having
so many gifts of woodcraft and craft-
manship and imagination should
have created so little permanent
equipment of civilization. With the
exception of a few tribes, the Indian
preferred his skin teepee or grass
thatched log hut to anything more
enduring.

The Indian was a rover, a rolling
stone who gathered none of the
mossy accretions of civilization.
Many of his ideas showed a degree
of spiritual insight unusual for the
savage state. He was a dreamer and
poet, an adventurous and enduring
warrior, but he lacked industry, he
cared not to lay stone nor hoe corn.
It all shows that if a race is to make
an impress on the world it must first
acquire the bread and butter habits
of daily labor and fixed habits.

A Few Figures.

Governor Frank B. Willis expend-
ed practically every cent of his emer-
gency fund for his first fiscal year,
the allowance being \$200,000. He
spent \$196,194.82. Serious inroads
have already been made on the sec-
ond appropriation of \$200,000 for
the fiscal year beginning July 1.

During the first year of the ad-
ministration of Governor Cox the ex-
penditures by the emergency board
were \$46,646.67. During the second
year the emergency expenditures
were \$71,216.08. Governor Cox's
total emergency expenditures for two
years was \$117,862.75. For his en-
tire term he had only \$200,000. He
left a balance of \$71,216.08 in the
emergency fund.

Selection of James R. Garfield as
the Ohio member of the Hughes ex-
ecutive committee is taken to mean
that the Hughes managers look upon
the Willis Republicans as hopelessly
in bad, and that they will draw
away from state managers in their
effort to win the Ohio electoral vote.

Garfield said some mighty mean
things about Willis in 1914, and he
has not yet or ever asked forgiven-
ess.

Candidate Harry M. Daugherty,
who seeks the Republican senatorial
nomination, has been making pecu-
liar statements about the use of mon-
ey to corrupt elections. It would
seem to the observer that he was
pointing an accusing finger at some
opponent. Dick is a millionaire and
Herlick is a multi-millionaire. Now
which can Harry mean?

Efficiency of the highest order is
shown by the Willis administration
in postponing the building of the
new state office building, while the
building commission expense contin-
ues, and the unnecessary overflow
of offices is still occupied by the un-
necessary office holders.

The people who dislike to have
their names in the paper, giving the
excuse that they wish to be incon-
spicuous, are rarely seen selecting a
modest home in an unfashionable
neighborhood.

During June the brokers circulate
stories of crop damage so as to buy
stocks cheap, which they sell during
July at high prices produced by fore-
casts of bumper crops.

Don't growl about heat. It is
the sizzle of the sun on the corn that
makes the bacon sizzle in the frying
pan next fall.

Utica is preparing to pave three
more streets. There's thrift and
enterprise in that town.

As an engine of warfare the sub-
marine is out of sight.

Fair Play for Deutschland.

(Pittsburgh Gazette-Times.)
Capt. Koenig of the submarine
Deutschland cannot be expected to
advertise the time of his departure
from Baltimore; too many enemies
are interested in intercepting the
vessel. But he will not tarry in
port any longer than is necessary to
complete his plans. Every day's de-
lay means advantage to the enemy
in placing guards around the en-
trance to Chesapeake Bay. We are
inclined to think Capt. Koenig is
quite able to take care of himself
and his craft, but doesn't our gov-
ernment owe something to its own
self-respect in insisting that the
Deutschland have fair play? In the
past we have protested to Great Brit-
ain and France against the opera-
tions of their cruisers too close to
our ports. They were lying in wait
just on the edge of the three-mile
limit and pouncing upon vessels
properly trading with the United
States. The Deutschland's mission
here is a proper one. Under our
neutrality the German submarine is
not different from a British, French,
Danish, Italian or Japanese mer-
chantman. It is entitled to come
and go, subject to interference only
on the high seas. Technically the
Deutschland can be seized at the
three-mile limit, but when the war-
ships of foreign nations press their
operations that close the three-mile
limit is. Anyway, the three-mile lim-
it is a relic of another day—the time
of short-range, smooth-bore guns. It
will have to be extended in the gen-
eral readjustments to be made after
this war.

There is no abatement of the flood
of piffle loosed by the feat of the
Deutschland. Most of it comes from
the entente allies and their friends.
One statement is that if the German
novelty ship is not a war craft it is
simply a blockade runner, and sub-
ject to destruction as such. That
will hardly be accepted by a just
world. The allies' blockade of Ger-
many is a declaration only. It is up
to them to make it effective. Ger-
many declared a blockade of all the
waters around the British Islands.
Every ship sunk by German subma-
rines was as much a blockade run-
ner as is the Deutschland. Germany's
methods of making its declared
blockade effective were denounced
as inhumane, which they were. For
the allies to apply German methods
to the Deutschland could be no
more humane. By the treatment ac-
corded the undersea merchantman
the world will judge the sincerity of
the allies.

Silly also is the German claim
which Ambassador Von Bernstorff
sets up that the trip of the Deutsch-
land demolishes the "legal block-
ade" of German ports by Great Brit-
ain. The status of affairs has not
been changed. If the Germans can
carry on transatlantic trade by means
of their submarines, well and good.
But that does not entitle them to
any help from neutrals in forcing
the entente allies to lift such block-
ade as they are able to maintain.

Soldiers' Ballots.

(Newark News.)
If the Jersey troops are to stay at
the front until November, there
ought to be a revision of the election
law that will guarantee an honest
casting and a fair count of their bal-
lots, and something more besides.
The law as it now stands would op-
en the way as has been already
pointed out, for irregularities and
for fraud, for no registration is re-
quired and the ballots are to pass
through private hands. The State
of Virginia last winter realized the
possibilities of complication because
of the soldier vote, and put a bill
through the Legislature that is ex-
pected particularly to meet the re-
quirements of the situation.

The Virginia law provides that a
soldier at the front, by forwarding 12
cents to the election board of his
precinct, shall be furnished with a
ballot, a certificate of registration
and a return envelope. The ballot
is to be opened and marked in the
presence of the voter's commanding
officer, or his delegated representa-
tive, and is to be forwarded to the
election board by registered mail
along with a coupon from the certi-
ficate of registration. If the return
envelope is received by the home
election board on or before the day
of election, then the ballot is to be
counted just the same as all others.

While the Virginia law has not
yet been tested, it seems to furnish
a fair working basis to guarantee the
integrity of the soldiers' vote. But
the Jersey soldiers ought to have
more privileges than are provided
under the Virginia law. They should
be entitled also to participate in the
primary elections. There is no depr-
ivation why they should be deprived
of having a voice in the selection of
candidates as well as in the election
of officials, provided, of course, that
machinery to safeguard their pri-
vileges be devised. Certainly this
is possible if the lawmakers have
a chance to take up the matter at
the plan fairly. A special session of the
Legislature to give the men who
have gone to the front the widest
participation possible in the coming
struggles at the polls, both national
State and municipal, would be a good
thing. It would have been better if
the lawmakers had thought of the
matter during the late session.

Quaker Quips.

(Philadelphia Record.)
It stands to reason that a book of
speeches should be more than a
mere volume of sound bites.
Just because all things come to
those who wait, don't start out to
be a waiter.
The man who draws all his money
from the bank evidently believes in
being his own cash drawer.
You don't always have to judge a
man by his deeds. Sometimes you
can size him up by what he doesn't
do.
Perhaps the doctor makes his
money honestly in spite of the fact
that his fees are, in a sense, ill-
gotten gains.
"Woman is the contradiction-
ary sex." "That's right."

to a positive manner.

ELECTING A PRESIDENT 16

ROOSEVELT.

Roosevelt
Decisively
Defeated
Parker
in
1904.

THE Republicans, pleased
with the successor of Mc-
Kinley, nominated Roose-
velt in 1904. A split had occur-
red in the Democratic party over
the question of free silver. Wil-
liam Jennings Bryan had a large
following, but also had many
bitter enemies. Alton B. Parker
of New York was agreed on
as a compromise candidate. He
was supposed to have no decid-
ed views on the issue. How-
ever, before the convention ad-
journed he came out in favor of
the gold standard.
Roosevelt was overwhelmingly
elected, and Charles W. Fair-
banks of Indiana was chosen
vice president, while Parker's
running mate that year was
Henry G. Davis of West Vir-
ginia.

Congress.
If Congressman Lougworth, the
Colonel's son-in-law, has really been
betting hats, as reported, that the
Republicans will have a majority of
at least 100 in the next House he
stands a most excellent chance to
lose. In recent years there have
been only two Congressional major-
ities of such size. In 1912 the Dem-
ocrats elected 290 Representatives to
145 for the Republicans, and in
1904 the Republicans carried the
House by 259 to 136. Under nor-
mal conditions, such as those now ex-
isting, the majorities either way
vary from 30 to 60. There is noth-
ing to indicate any sweep this year,
and the Congressman will doubtless
have to pay for a number of high-
priced hats.—Philadelphia Record.

Income Taxes for All.

Under existing law less than one-
half of 1 per cent. of the people pay
an income tax. Of the 375,000 per-
sons who contributed in 1913, all
but 20,000 were assessed on incomes
ranging from \$3,000 to \$20,000 a
year.

This is class taxation of the most
pronounced kind. It only exempts
the great body of citizens having in-
comes of \$2,000, or single, and \$4,
if married, but it makes a sorry
showing in its returns from the
very prosperous. It might almost
be called a measure to tax incomes
ranging from \$3,000 to \$20,000.

Income taxes have come to stay.
More and more they must supersede
unequal and juggling indirect taxa-
tion. The more wisely they are dis-
tributed the greater will be the
popular interest in government and
governmental responsibility to the
people.—New York World.

Hetty Green's Will.

Discussion of the ethics of Mrs.
Hetty Green's disposition of her es-
tate has begun, and litigation by
representatives of society, not by
kinstfolk, already looms ahead. In-
cidentally the case also will figure in
discussion of the proposed federal
inheritance tax. It is in the course of
time her will, with respect to the
toll society should take of her for-
tune, is overridden, it will be due in
part of the objection of the public
to the theory of acquisition and dis-
tribution of wealth for which she
stood. A code of social obligation
for multimillionaires has been taking
informal, if not formal, shape in the
United States; and for those who
decline to conform to it, laws are be-
ing provided that rectify the injus-
tice and indifference of which they
may have been guilty.—Christian
Science Monitor.

Did You Know

That the production of dwarf
trees is an art which has been car-
ried to great perfection in China and
Japan? It depends on the preven-
tion of an abundant flow of sap, so
that while the tree is kept living and
healthful, vegetation does not go on
with its natural activity. The trees
are planted in shallow and narrow
flower-pots; care is taken that their
roots never pass into the ground be-
neath; they are very sparingly sup-
plied with water; their strongest
and leading shoots are pinched off,
and their branches are bent and
twisted in various ways. A very ex-
traordinary dwarfing is the result of
these processes.

Society

Mrs. Clara Elchorn was hostess to the Social Embroidery club at her home in Pryor avenue Wednesday afternoon. The hours were pleasantly spent in a social time and music. The guessing contest favors were won by Mrs. A. M. Cornet and Mrs. Wm. Shamp. A chicken dinner was enjoyed, the rooms being decorated with cut flowers. The guests of the club were Mesdames Keller, Winn, Shneck, Stauffer, Spees, Collins, Mrs. Evert Scott of Chicago and Mrs. Harry Scott of Hanover. The club will meet in two weeks to enjoy a picnic in the woods.

On Tuesday evening, July 11, a jolly crowd of United Brethren met at the home of the newly married couple, Mr. and Mrs. F. W. Holton, in South Sixth street, to help them celebrate their wedding with a miscellaneous shower. They received many useful presents. Those present were Mrs. Kline, Mrs. Cox, Tillie Shaw and Bertha, Mrs. Meckley, Emma Wells, Miss Dunn, Mrs. Stutard, Mrs. Tarbee, Mrs. Jamison, Mrs. Wilson, Hazel Wilson, Ruth Phillips, Mrs. Loughman, Mrs. Phillips, Bernice Warner, Mrs. Grandstaff, Mrs. Hottinger, Mrs. Mercer, Mrs. Burck, Mrs. Williams, Irene Miller, Maude Ried, Mrs. Bostrich, Mrs. Dutcher, Mrs. Justice, Mrs. Acton, Mrs. Camp, Mrs. Jones, Mrs. Warman, Mrs. Muelham, Mrs. Mackley, Wm. Phillips, G. J. Miller, Chas. Warner, Mrs. Warner, Mrs. Magill, Mrs. Harris, Gladys Warman and Willard Acton.

Mrs. William Zentmeyer entertained with a delightful garden party on Thursday afternoon at her home in West Main street, honoring

her sister, who is her guest, Mrs. William A. Monroe of Spokane, Wash., and Mrs. Walcott of Chicago. The hours were informally spent and the luncheon tables were placed in the garden, and were arranged with baskets filled with sweet peas and roses. Mrs. Zentmeyer's guests numbered thirty-five.

The ladies of the Sunshine club were delightfully entertained by Mrs. Claud Garrison at her home in German street yesterday afternoon. The hours were soon passed in conversation and a sewing contest. Mrs. Morgan Devore being the lucky contestant. At the close of the afternoon tempting refreshments were served to the club members and one guest, Mrs. Frank Frost.

The next meeting will be held at the home of Mrs. E. L. Curry, No. 12 Oak street.

The members of the Phi Beta Chi sorority have planned a boat trip for next Monday night. The members will go to Zanesville where they will take a trip on the Muskingum river to McConnelville, returning Tuesday morning. Those in the party will be Misses Margaret Moore, Lucille McEwen, Alta Sherburne, Martha Sachs, Dorothy Glenn, Elizabeth Clayton, Dorothy Kuster, Amy Kuster, Clotilde Howard, Marion Collins and Olive Howard.

The Knights of Columbus will entertain with a dancing party this evening at the Buckeye Lake Yacht Club at Buckeye Lake. This is the first dance of the summer series.

The Sick.

Mrs. Charles C. Stees, who underwent an operation at the City Hospital, was taken in the Bradley ambulance to her home in 94 Gay street Thursday afternoon.

Miss Ada Simms of Fairfield avenue is visiting friends in Zanesville.

were Mrs. Joseph Whyte and daughter Marion, Lamore, Mrs. Charles Louis of Dayton, and Mr. Ernest Bell of Columbus.

WHO WANTS TO BE SITTING IN SHADE ANYHOW?

Newark citizens today were seeking the shady side of the streets and avoiding the shade of trees and buildings in an effort to escape suffering from the intense heat, which at noon today at the J. C. Brown grocery in East Newark shot the thermometer up to 83 degrees in the shade.

Several bench warmers, members of the regulars who daily seek recreation on the park benches in the public square, avoided the shade and remained in the sun. Their advice to the sweltering citizens is to stay away from the shade.

Note—This was written in the shade.

M. M. GILLET WOULD RAISE VOLUNTEERS

Washington, July 14.—Colonel Melville Gillett, a well-known Ohio National Guardsman and former candidate for the Republican nomination for secretary of state, now at Bogalusa, La., has wired to Representative Ashbrook asking that he be given authority to return to Ohio and raise several volunteer companies. His former home was at Newark. Mr. Ashbrook placed the matter before the secretary of war.

Levi Snyder's Burial.
The body of Levi Snyder was taken in the Bazar ambulance from Thornville to Reading Thursday morning for burial.

Burial at Lancaster.
The body of Mrs. Bridget Civil was taken in the Bazar ambulance to Lancaster Friday morning for burial.

MARTINSBURG
Mr. James Freese received the congratulations of many friends Monday over having arrived to the advanced age of 94 years. He still insists on doing a few chores about the home. His life has been free from sickness. He has always engaged in an active life and has always been free from the effects of alcohol and tobacco. We predict for him a few more years of life.

Messrs. William Hammer, W. J. Lyon and Dean Hancock returned Friday from a ten days auto tour through Michigan in the latter's machine. A camping outfit was carried. All expressed themselves as having a great time.

Mr. Wilford McArthur has resigned his position in the Shrontz store and has gone to Oklahoma to work in the oil region.

Mrs. Joseph Burwell of Perrysville is the guest of Mrs. Helen Hancock.

Miss Lena Dunlavy of New Castle is the guest of her sister, Mrs. D. T. Allen.

Miss Pearl Townsend is spending a few weeks at her summer home here.

Mr. and Mrs. Walter Freese of Newark spent Sunday afternoon with Mrs. Margaret Freese.

Mrs. Mary Frye and Mrs. Rachel Beatty of Hennepeck spent Sunday with the family of William Beatty.

Mrs. Jane Henry is the guest of friends in Newark.

Mrs. Mary Donahay and daughter Mona of Utica are guests of Mr. and Mrs. T. L. Beatty.

Mrs. A. C. Tilton is quite ill with stomach trouble.

Granville

(Special to the Advocate.)
Granville, O., July 14.—It is the immediate aim of the new Chamber of Commerce which under its popular president, Mr. John Geach, is starting out under most auspicious conditions, to have enrolled at least one hundred of the representative citizens of Granville at the next meeting of the organization, which will be held on July 24. Also, it is to be kept in mind that a prize of \$5 is to be given to the person sending in the most appropriate name for this new and important organization, only one name being allowed to any one person. All communications should be sent to L. A. Austin, secretary, all names to be read and voted on at the next meeting.

Mr. Fred Hobart of North street had the misfortune to fall and dislocate his hip while working in the hay this week.

Miss Claire Geach, daughter of Postmaster and Mrs. John Geach, is spending a few days at the summer cottage of her sister, Mrs. Ben Woodbury at Geneva.

Mrs. Birney E. Trask, formerly of Granville, is expected in the village next week when she will be the guest of Miss M. E. Penney.

The Jackson (O.) Sun of recent date contains a lengthy and interesting article concerning the announcement of the engagement of Miss Elizabeth Matthews of that city, formerly a member of Kappa Phi sorority in Denison, to Mr. Lawrence G. Wesson of Worcester, Mass., a Harvard graduate, who spent the past year as instructor of chemistry in Case College, Cleveland. The wedding is to be a quiet home affair occurring in the latter part of August.

The Christian Endeavor young people will give a lawn fete on the grounds of the Presbyterian church, Saturday (tomorrow) afternoon and evening. Everybody welcome.

Postmaster John Geach will leave Granville next Sunday for a brief visit in Washington, D. C.

Miss Mary Roberts of Columbus is spending her vacation at the home of her mother, Mrs. Ella Roberts, in Park Drive and was one of the out of town guests at the Travelers' garden party Wednesday afternoon.

The program committee of the Granville Women's Music club, Mrs. W. P. Ullman, president of the club, and Mrs. Theodore Johnson, met at the home of their chairman, Mrs. J. S. Jones, on the Newark road yesterday afternoon.

Boss Barbers' Agreement.
 The boss barbers of the city do not
 intend to raise the price of all bar-
 bering according to one of the mem-
 bers who called at the Advocate of-
 fice today, but instead are trying to
 secure an agreement to raise the
 price of hair cutting from 25 to 35
 cents. Nearly all of the boss bar-
 bers have signed the agreement, he
 stated. Several of the bosses have
 taken a stand against the raise and
 state that they will not sign the
 agreement. What effect this will
 have on the price advance will be
 determined at a meeting to be held
 in the near future.

The Courts

Granted Divorce.

In common pleas court Friday a
 decree of divorce was granted to the
 plaintiff, Bertha McDonald from
 Clyde McDonald. The defendant
 was ordered to pay \$10 per month
 for the support of two minor chil-
 dren, the custody of whom was
 awarded to the mother.

Liquor Tax Settlement.

County Auditor J. W. Hursey has
 made the semi-yearly liquor tax set-
 tlement for the first half of 1916, the
 year commencing the fourth Monday
 in May.

There are 61 saloons in Licking
 county which paid the sum of \$30-
 500 into the Licking county treasury.
 Of this sum the city received
 \$14,171.57; the state, \$8,543.92; the
 primary fund, \$5,962.63; Utica vil-
 lage, which has three saloons, \$735.
 The second payment of \$30,500 will
 be due in January.

Asks for Divorce.

Lillie L. Watson has filed a peti-
 tion in probate court against Larry
 Watson. The parties were married
 November 26, 1909. Plaintiff al-
 leges that defendant abandoned her
 June 7, 1912, and that he has been
 guilty of gross neglect, refusing to
 provide her with the necessities of
 life. She asks for a divorce and
 restoration of maiden name, Lillie
 L. Keller.

Divorces Granted.

Two divorces were granted in pro-
 bate court today. Lottie M. Strick-
 len was divorced from Charles A.
 Stricklen on the charge of failure to
 provide and gross neglect of duty.
 The parties were married July 18,
 1911, and are the parents of one
 daughter, aged four years.

Klimer E. Martin was divorced
 from Alta V. Martin on the grounds
 of wilful absence for more than
 three years. The parties were mar-
 ried May 19, 1912, and are the par-
 ents of a daughter, aged two years.

Real Estate Transfers.

Phoebe A. Hillman, et al., to An-
 drew J. Sanford, 105 acres in Lick-
 ing township, \$1, etc.
 Clarence Stuart to Irvin Merrick,
 25 acres in Madison township,
 \$1, etc.

Asks \$1,000 Damages.

Carl Brendt has filed a petition
 in common pleas court against John
 Shipley, alleging in the petition that
 on June 23, 1916, he was riding a
 bicycle in Hudson avenue when he
 was struck by an automobile driven
 and owned by the defendant; that he
 was thrown to the paved street with
 great force and was rendered uncon-
 scious; that deep gashes were cut in
 his head and face and that he was
 sick and lame for 16 days and that
 he is not entirely well yet. He asks
 damages in the sum of \$4,000.

PROPERTY OWNERS MUST CUT WEEDS, OR PROSECUTION

In response to a request Governor
 Willis states in a letter to Health
 Officer Dr. W. H. Knauss that, in
 regard to the cutting of the weeds
 in the canal bed and on its banks,
 the matter will be immediately taken
 up with the superintendent of the
 Board of Public Works. Some time
 ago Dr. Knauss petitioned the state
 superintendent of canals to have the
 weeds on the canal property cut, but
 nothing was done about the matter.
 Dr. Knauss states that all prop-
 erty owners in the city who do not
 keep the weeds cut on their property
 will be prosecuted.

The Best Time To Buy Your Summer Wants Will Be Saturday

OUR SUMMER CLEARANCE SALE includes summer lines throughout the house. Summer dresses, suits, coats, summer waists, muslin underwear, wash goods, silks, etc.

SUMMER SKIRTS ARE NECESSARY THESE HOT DAYS.

When you can buy such pretty styles at 98c to \$1.25, it is cheaper than buying the materials and having them made. At these prices the materials are pongee, poplin, galatea and linen. The models are made with either one or two pockets, wide belts, and finished with large buttons. Be sure to see the styles at 98c, \$1.25 and \$1.50.

UNUSUALLY PRETTY WASH DRESSES 94c Each

The cool dresses are made in lawns and voiles—in the wide awning stripes, or dainty floral patterns on light grounds. Finished with low collars and fancy vest effects. \$1.50 values now .94c ea.

YOU NEVER SAW SUCH AN ASSORTMENT OF SUMMER WAISTS AT 95c Each.

As our present stock contains all the late styles, showing the large collars and trim down the front, fastened with colored scalloped edges—large checks and bars in all white weaves, as well as a big assortment of lace and embroidery trimmed waists. 98c

YOU WILL FIND SPLENDID MUSLIN UNDERWEAR IN THE SALE.

AT 98c are gowns, skirts and Princess slips, lace and embroidery trimmed.

AT 65c are gowns and muslin gowns in slip-over styles. Drawers and skirts. All well made and finished with lace and embroidery trimmings.

HOUSE DRESSES ARE COOL FOR MORNING WEAR.

During the morning you want dresses that are neat as well as cool.

SPLENDID STYLES AT 50c Each.

Nicely made with low neck, having round collars and short sleeves. A big range of patterns to select from at 50c each.

THE 65c HOUSE DRESSES

Are gingham, in plain colors, stripes and checks, finished with pipings, embroidery edges or plain bands.

98c WILL BUY

A beautiful house dress in either percale, gingham or lawn. The styles are very attractive and the materials are such daily colorings. Now 98c each.

NEW SUMMER KIMONOS, 98c Each.

Just the thing for hot weather. Pretty Japanese designs in crepes—in grey, pink, shades of blue, and light grounds. Some are made Empire waist, while others are made in the new elastic band style. Also pretty styles in lawn kimonos in light grounds, formerly priced at \$1.50, are in this showing at 98c each.

DON'T OVERLOOK THE 29c WASH WAISTS— A BIG SHOWING OF LINGERIE WAISTS, 50c Each.

Values up to \$5.00 in silk crepes, soft silks and lace waists in white and colors, are in the sale at \$1.00 each.

JULY CLEARANCE SALE

WE GUARANTEE

Every description and quoted price, in the circular which we sent you, to be absolutely the truth and exactly as you will find the merchandise in the store. The management of this firm will not tolerate inflated prices and misleading statements. We stand for the truth in printed word as well as spoken. Temporary trade is not our wish—it is a lasting success we are building and truth and honesty must always prevail.

READ THE CIRCULAR

That has been left at your door—it tells a story that cannot help but interest you. It abounds with frank statements of fearless price cutting. Remember its story is founded upon the solid rocks of honesty and it heralds only merchandise that meets the strict requirements that this store insists upon. Once again we ask you to read it carefully. You can, then, more fully realize the importance of this mid-summer event.

Begins Saturday Morning, July 15th, At 8:00 O'clock A Matchless Out-Pouring of Values

You have seen signs of sales—read of sales, until, perhaps the word sale has lost its effect and true meaning. It seems to be a regular practice for some stores to have a sale every day—to juggle prices in a vain attempt to convince the unsuspecting. Beginning tomorrow morning our ANNUAL JULY CLEARANCE begins. It's going to be an event of such magnitude and importance that no one with a view to saving dollars can fail to attend.

Nearly everyone is acquainted with present market conditions.

Wholesale prices today are higher than we are selling the goods at retail. In order to protect ourselves from advancing prices we were compelled to place our orders for a large part of our fall stock many weeks ago. Much of it is beginning to come in now and we find our reserve stock rooms filled with summer merchandise. We must rid ourselves of this at once—in two short weeks we must sell thousands of dollars' worth of the finest summer goods at a sacrifice that is unusual for a store to make at this season of the year.

THE DOORS WILL BE OPENED PROMPTLY AT 8:00 O'CLOCK----- COME CONSIDER, CRITICISE AND COMPARE

\$\$\$ The Store That Saves You Dollars \$\$\$

EXTRA SALESPeOPLE

Plenty of salespeople will be here, so no long waits will be necessary. We advise morning shopping, however, as it will be cooler and shopping will be much more pleasant.

T. L. DAVIES
LEADER IN QUALITY AND LOW PRICES.

PROMPT SERVICE

The entire store has been converted into a sea of bargains. Everything on sale has been prominently displayed with price cards attached. This will make shopping easy and service rapid.

ANTENEN SAYS HE IS CANDIDATE

Hamilton Man in Interview Today Says He Does Not Know Mr. Snyder of Cincinnati.

[Special to The Advocate] Hamilton, O., July 14.—Carl Antenen, Democratic candidate for secretary of state, was seen by the Advocate correspondent this morning and asked what he had to say about the claim filed by W. D. Fulton of Newark, another candidate for the nomination of secretary of state. Mr. Antenen is a young lawyer who recently attained his majority.

Mr. Fulton, who was the first man in the state to announce his candidacy, filed a protest recently, claiming that Antenen's name was placed in nomination for the purpose of reducing Fulton's vote, as the names will appear upon the ballot in alphabetical order, making Antenen's name head the list. It will be remembered what effect this had when Jack Arnold was nominated for lieutenant governor two years ago when practically everybody regarded his candidacy as a joke.

"I am a bona fide candidate for the position," says Antenen. "I do not know Mr. Snyder of Cincinnati, or any of the other candidates, and I would not be a party to any scheme such as Mr. Fulton charges. I am a candidate in good faith and have written to Democrats of my acquaintance in many counties asking their support."

No action has been taken at Columbus on Mr. Fulton's protest. Mr. Fulton is sincere in his belief that Antenen was persuaded to enter the race for the purpose he alleges in the protest which has been filed in Columbus.

The Railroads

Rumors of Changes

For the past week there has been rumors about considering a number of proposed changes in the official family of the local division of the Baltimore & Ohio railroad company, but as yet no official information has been given out by the company. Superintendent Donald F. Stevens, of the local office was out of the city today and could not be seen regarding to rumors. Since the Baltimore & Ohio company made several important changes in the executive force the company a few weeks ago, rumors have been rife as to how the changes would effect the Newark division. So far as could be ascertained the company did not intend making any changes among the officials here, but reports have it that there will be some changes and within a few weeks.

Trainmaster on Vacation. Trainmaster C. H. Titus, of the local Baltimore & Ohio division and his wife and daughter will leave Saturday for a two weeks vacation. Mr. Titus expects to visit his old home at Morrow, O., while on his trip.

Pay Checks Arrive. The Baltimore & Ohio pay checks arrived in this city yesterday on train No. 11.

S. A. Cromwell Here. S. A. Cromwell, who is connected with the office of General Supt. of Motive Power of the B. & O. com-

pany, is in the city in the interest of the passenger coaches being assembled here by the company for transporting troops from Columbus to the Mexican border. Mr. Cromwell has been in the city several days looking after this line of work and will probably remain here for another week.

Vice President Enroute. Vice President J. L. Davis, of the Baltimore & Ohio railroad company, made an inspection tour of the company's division between Chicago Junction and Sandusky today, while enroute from Chicago to Baltimore. Mr. Davis was accompanied on the inspection tour by Supt. Donald F. Stevens.

CENTRAL CHURCH MAY SECURE NEW PREACHER SOON

The members and friends of the Central Church of Christ will be interested in the announcement that Prof. W. T. Fisher, of Canton, Ohio, will be in Newark on Sunday, July 16, and preach both morning and evening. He has been invited to come and spend the day here with a view to a mutual acquaintance, looking to a possible engagement with the church. Mr. Fisher comes highly recommended as a man of splendid ability, thoroughly Christian in character and of winning personality. For the past three years he has been a teacher in Phillips Bible Institute at Canton. Before coming to Canton he was state Bible school superintendent of Iowa for the Disciples of Christ, for five years; and previous to that time he was pastor of

the Christian church at Clarindon, Iowa, for ten years. He is now about forty-three years of age. It is said that he has a fine Christian family, who are also good church workers.

It is very important that every member shall be present Sunday morning and evening if possible, to meet Mr. Fisher and to hear his messages. The pastor of the church will also be present and have charge of the services. All are urged to come in time for the Bible school session, which begins promptly at 9:30 o'clock. A cordial invitation is extended to the public to attend any or all of the meetings of the day.

Sixty members of the Sunday school classes of the Trinity Episcopal church went in motor trucks to Pig's farm west of the city, where the day was spent in games, races, and other amusement provided especially for the occasion. A bountiful lunch was spread on the green, and in the evening the party returned in the trucks to their homes in the city.

FITZSIMMONS IS PREPARING FOR HARD GAME NEXT SUNDAY

Owner Fitzsimmons of the Fitzsimmons team of the Capital City league, is busy grooming his players for their game Sunday with the Hope-Hayes team of Columbus, at Wehrle park. Mr. Fitzsimmons is anxious to win Sunday game as a win for the local and a defeat for Lancaster will put the Newark pennant-chasers in the lead in the league's standing.

The famous Liddle Link and Tony James will be in the game with the Columbus crew and this alone assures the fans that Sunday's game will be well worth seeing. The strongest line-up obtainable will be in the field for Newark and the locals are confident they can turn back the visitors. Then it will remain for the Wilkes of Columbus to stop the Lanks at Lancaster to place Newark at the top of the Capital league standing.

American bidders recently lost a big contract in Argentina because of a lack of ships for prompt delivery.

Egypt Remains Untroubled Amid Universal Upheaval Although It Is One of the Prizes Sought by War

(Associated Press Correspondence.) London, July 12.—(Reuter correspondence.) The Egyptian Expeditionary Force writes: "Certain it is that this country remains marvelously untroubled in the midst of the universal uproar, though its peace is constantly threatened for there can be no doubt that it was long ago marked down by our enemies as one of the prizes of successful war. But the British line in the desert keeps the active and watchful enemy on our eastern frontier in check. The fanatical hordes of the Western Desert and Darfour have received a lesson which will probably last them at least until the end of the war, and in the interim the real Egypt, the green strip of the Nile valley, and the Delta, the Egypt of the peasant cultivator, of the teeming green fields and the mud-built villages have not been touched by war. It has not heard a shot fired or paid a penny of extra taxation.

"The European element in the country has felt the near neighborhood of war. The shortage of tonnage has affected businesses in many cases, although in others business men, in spite of high freights and high prices, are doing better than they ever did before. Many Frenchmen and Italians have been called to the colors in Europe. The German Austrians and Turks have been removed or interned. But the natives are hardly affected at all. They are not asked to serve—the mere handful of Egyptian reservists have been called up to serve as camel-drivers. They have no interests in the casualty lists. All that the war means for them is higher prices for their produce and their labor, and a much larger amount of money in circulation among the poorer classes than was ever the case before. In these times of short tonnage and high prices everywhere, it is naturally the policy of the army authorities in Egypt to utilize, as far as possible, the produce of the country and to import only what Egypt does not supply or can only supply at excessive prices.

"There is a military Local Resources Board at Cairo, which, with the aid of civilian advisers familiar with the country, systematically collects, transports and utilizes all Egyptian produce, whenever obtainable, that can serve the turn of the army. Naturally, foodstuffs and especially grain are the first need. All the wheat, maize and barley required is bought in Egypt and at prices which invariably show a substantial increase on the pre-war prices. Purchases are made in a wholesale fashion. The army for instance, took the whole of the last maize crop at an abnormal price, and has seen to it that this year there is a larger acreage under cereals than ever before.

"Egypt does not supply the troops with meat—it cannot rival the frozen meat from Australia and New Zealand, but all the fresh vegetables for the army are bought in Egypt and enormous quantities of fruit are bought by the soldiers on their own account. Oranges, of which this country is a large producer, fetched unprecedented prices last season. The cultivator is not slow to observe these things and is growing much more garden stuff than ever before. In particular, the very high price of potatoes last winter has encouraged him to devote more land to growing this indispensable vegetable. There is, in fact, nothing that he can grow that does not pay him better than in ordinary times. The army is a mighty purchaser of camels and needs vast quantities of fodder, which it buys from the Egyptian farmer. The army has reconstituted the moribund salt industry at Damietta. It has created a timber industry in Egypt. The country is not rich in timber, but large quantities are needed, and the army buyers have looked around till they found supplies in various parts of the country.

"The army is also a large employer of labor. It is calculated that the military authorities have some 18-

000 native laborers on their payroll, and these men besides being fed, lodged and clothed, earn higher wages than they did in peace time when they had to live on their wages. It should be noted too that although last year's cotton crop was small, it was sold at a good price and this year there is more land under cotton than ever before. Egypt this year will be a bigger producer in all ways than she has ever been.

"The Egyptian peasant, therefore, has done well these last eighteen months. He buys little and is saving money. The high prices for imported goods affect him far less than the Europeans in the country. The dearth of coal has been a difficulty, but it has not offset the high price of all the country's products. "In one respect, Egypt has been a loser. There is now no winter tourist traffic. The tourists come no more. But their place is taken by the large number of officers who spend their leave in Cairo or Alexandria, and the vendors of costly curios find them fairly good customers. The men spend a great deal of money with the small shopkeepers and the Austrians are customers worth having, even if they have no more than an Austrian private's pay to spend. Also the new military season lasts all the year round, while the tourist season at best was a matter of two or three months. Hotels in Cairo which formerly vegetated in summer now do a thriving business right through the hot season. Several of the great hotels have been taken over by the army as hospitals or for other military purposes and those that remain have as much business as they can cope with."

WOMAN TELLS MOST REMARKABLE STORY

"It Took All The Will Power I Had To Drag One Foot After The Other."

HOW QUICK RELIEF CAME.

"I was so tired and weak that I could not do my housework without a great deal of effort on my part. It just seemed as if I had lost all ambition," declares Mrs. C. S. Decker in a signed statement. "My appetite was poor, my strength gone and it took all the will power I had to drag one foot after the other. I knew I was badly in need of some sort of good tonic, and as I heard so much about Native-Roots, both from neighbors and the papers, I sent for a bottle. I am now taking my third bottle, and oh! how much better I feel. I eat good, sleep good and feel fine. My husband also helped me take one bottle and even that little bit made him feel much better. For a tonic and general builder for weak and aching people I can not recommend Native-Roots too highly."

"This is just the time of the year when the human system cries most loudly for a good invigorant and re-constructant. As soon as you notice the tired listless feeling, lack of appetite, shortness of breath, distress after eating or other warning signals, take a short treatment of Native-Roots (double strength). Don't wait until the color has entirely left your cheeks, until your lips are white, your eyes dull and a general don't-care-a-hang feeling comes over you. It is so much easier to correct weakening of the blood and organs in the earlier stages than later.

Extract of Native-Roots (double strength), is recommended to build up the blood, strengthen the nerves, stomach, kidneys, liver and other organs. In this way the general health improves, the appetite increases, the digestion is strengthened and new energy and ambition developed. Work becomes easier because it does not cause exhaustion. Keep the system in the highest efficiency if you want to escape the inroads of malignant disease.

Extract of Native-Roots (double strength) can be secured in Newark only at Erman's Arcade Drug Store.

MONKEYS
INFECTED WITH INFANTILE PARALYSIS GIVE PHYSICIANS WORKING BASIS.
Intra-Spinal Injections Recommended—Great Demand for Health Cards in New York.

(ASSOCIATED PRESS TELEGRAM)
New York, July 14.—Dr. S. J. Meltzer, of the Rockefeller Institute, received many inquiries today regarding his treatment of infantile paralysis, which was the only one recommended at the special conference of the academy of medicine held last night to discuss the disease now epidemic in New York city. He urged the treatment of all cases by intra-spinal injections of solutions of adrenalin.

The physician declared he had great faith in this treatment because of the remarkable results it accomplished with monkeys which had been artificially infected with infantile paralysis. In conjunction with other physicians, he has conducted a long series of clinical experiments in this direction.

There was a great demand today for the new health cards which the department of health has begun to issue for the benefit of citizens who wish to leave New York and fear that their movements will be hampered by extreme quarantines in other places. To obtain these certificates residents must convince the physicians of the health department not only of their freedom from the disease, but that they have not come into dangerous contact with it in any other way. Health Commissioner Emerson said, however, that the certificates were not passports which had to be accepted, and admitted that in some towns where absolute quarantine against New York had been declared, the authorities might refuse to honor them.

CRUELTY

OF SUPERINTENDENT OF AN OHIO CHILDREN'S HOME TO BE INVESTIGATED.
Criminal Prosecution Probably Will Result—Children Alleged to Have Been Tortured.

(ASSOCIATED PRESS TELEGRAM)
Columbus, July 14.—The board of state charities will wait for local authorities to bring criminal prosecution against the superintendent of a children's home in Ohio, who is said to have been using ball and chains, dog whips, and other instruments of torture on the children. If the prosecuting attorney and grand jury fail to probe the charges, the attorney general of the state may be asked to take action in the capacity of legal adviser of the state in its supervision of children's homes.

H. H. Shriver, secretary of the state board of charities, still refuses to reveal the identity of the institution until Charles V. Williams, director of the child welfare department, concludes his investigation. Reports of extreme cruelty and torture, such as are related in the penal history of the middle ages, came to the ears of the state investigators.

When the charges first were made, about two weeks ago, the superintendent belonged to the old school institution heads who believed in liberal amounts of corporal punishment.

SPRINGFIELD HAS A FUND FOR RELIEF OF GUARDSMEN'S FAMILIES.

Springfield, O., July 14.—Families of members of Company B, Third regiment and Company B, Ninth battalion will not suffer according to announcement made by the war relief fund committee here today. A total of \$10,405.16 has been subscribed by Springfield citizens and business institutions to use for the families of soldiers.

How Thin People Can Put On Flesh

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are probably sadly out of gear and need reconstruction.

Vigorous Men and Women Are in Demand

If your ambition has left you, your happiness has gone forever unless you take advantage of T. J. Evans' magnificent offer to refund your money on the first box purchased if Wendell's Ambition Pills do not put your entire system in fine condition and give you the energy and vigor you have lost.

Be ambitious, be strong, be vigorous. Bring the ruddy glow of health to your cheeks and the right sparkle that denotes perfect manhood to your eyes.

Wendell's Ambition Pills the great nerve tonic, can't be beat for that tired feeling, nervous, troubles, poor blood, headaches, neuralgia, restlessness, trembling, nervous prostration, mental depression, loss of appetite and kidney or liver complaints.

In two days you will feel better. In a week you will feel fine, and after taking one box you will have your old-time confidence and ambition.

Be sure and get a 50 cent box today and get out of the rut. Remember T. J. Evans and dealers everywhere are authorized to guarantee them. Mail orders filled, charges prepaid by The Wendell Pharmaceutical Company, Inc., Syracuse, N. Y.

SILENCE

CONTINUES AS TO DATE OF DEPARTURE OF THE SUBMARINE DEUTSCHLAND.

Probable That Hydro-Aeroplane Will Scout Coast Before Dash Is Made to Open Sea.

Baltimore, July 14.—Silence continues as to the date of departure of the super-submarine Deutschland. The tug Timmins, which met her at the tug and conveyed her to Baltimore, remains fastened at the pier day and night. She is in such close proximity to the submarine that it probably would take only ten minutes to get the latter from the mooring into open water.

It was learned that a big hydro-aeroplane, practically completed, is stored on the pier of the Eastern Forwarding company, where the Deutschland is docked. Persons in close touch with the operations of the forwarding company intimate that the flying boat will be sent to the coast for scouting purposes before the submarine makes her dash for the Atlantic.

The manner in which the Deutschland has been cleared of everything she brought over, even pieces of pig iron ballast, led to the idea that she would return to Germany heavily laden. Until the owners of the cargo that has been taken from her file their papers with the custom house no authoritative detailed statement as to its composition can be obtained.

It was said that it was unlikely that entry would be made this week. Captain Koenig, the submarine's commander, ridiculed the report from Amsterdam that the principal object of the Deutschland's voyage was to convey a consignment of diamonds. At least one member of the submarine's crew will not return to Germany on the vessel. G. Prusse, rated as supercargo, made application to the local immigration authorities to be landed in this country. The application was granted.

CONVENTION OF LUTHER LEAGUE.

(ASSOCIATED PRESS TELEGRAM)
Toledo, July 14.—Arrangements were completed today by Rev. Luther M. Kuhns of Omaha, Neb., general secretary of the Lutheran League of America, for the twelfth biennial convention of the organization to be held here August 15 to 18. Credentials for 1,000 delegates from the United States, Canada, Porto Rico, China, Japan and India have been issued. The sessions will be devoted principally to the cause of missions and education.

NEGRO SOLDIERS BURIED WITH MILITARY HONORS.

(ASSOCIATED PRESS TELEGRAM)
Washington, July 14.—The bodies of six negro troopers killed at Carrizal were buried in Arlington cemetery today with full military honors. None had been identified.

The body of Captain C. T. Boyd, who died at the head of his command in the Carrizal fight, was buried here Tuesday.

CARNIVAL COMPANY THROWN INTO RIVER.

(ASSOCIATED PRESS TELEGRAM)
Gallipolis, O., July 14.—The Big Four carnival company was capsized on a barge while being transported from Marietta to Pomeroy last night. Several members of the company were thrown into the Ohio river and narrowly escaped drowning. Fishermen rescued the show people.

COUSIN CONTESTS WILL.

(ASSOCIATED PRESS TELEGRAM)
Springfield, July 14.—Charging that the will of Dr. Milton H. Collins of South Charleston, which was filed this week and which bequeathed an estate valued at a half million dollars, is not the last will and testament, Arthur E. Yount has filed a suit in common pleas court. He says he is a first cousin of the late Dr. Collins. He was not remembered in the will.

BRITISH STEAMER LOADS AT TOLEDO.

(ASSOCIATED PRESS TELEGRAM)
Toledo, July 14.—Flying the British flag, the steamer Honoreva arrived here today from Porto Rico, light. Under charter to the Valley Camp Coal company of the Cleveland, she is loading coal for the Canadian and Soo and will proceed from there to Chicago to load meat for the allies. Capt. B. D. Fitzpatrick is in command and half his crew are Chinese coolies.

FAIRBANKS ALSO WILL BE TOLD HE IS A CANDIDATE.

Indianapolis, July 14.—Plans for the notification of Charles W. Fairbanks of his nomination for vice-president began to take shape yesterday following receipt of information that Charles E. Hughes is to be notified in New York July 31. It is probable the notification of Mr. Fairbanks will take place about ten days after Mr. Hughes is informed officially.

The affair will be at the home of Mr. Fairbanks here. Among those who have promised to attend the notification are William R. Wilcox, Republican national chairman, Ohio, prominent Republicans have promised to be present.

2 MEN STABBED; ONE RESCUED FROM DEATH IN SWAMP.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, July 14.—MacHenderson, Baltimore and Ohio railroad employee, this morning was rescued from death in a swamp, where he had run to escape after being stabbed by two men who attacked him early this morning in his camp near the B. and O. round house. Isaac Smith, who lived with Henderson, was cut in the right knee and hand. Police captured two men who gave their names as Amos Wilson and Sidney Mosley. Both are charged with cutting to wound.

NEARLY HALF OF THE TICKETS ALREADY SOLD

CHAUTAUQUA FOR NEWARK
AUG. 1 TO 8 PROMISES TO BE A BIG SUCCESS.

Solicitors Pay for Their Own Tickets, As Does Everybody—Tickets at Down Town Stores.

The sale of Chautauqua season tickets is progressing nicely, nearly one-half of the required number having already been sold.

The weather has been almost unbearable and the solicitors have worked under difficulties. The campaign of solicitation was started only two or three days before the Chautauqua advertising was fairly commenced and in many instances people were found who had given the matter no consideration and the solicitors were asked to call later.

Mrs. Frank Agnew, chairman of the general committee, called the heads of the ward committees together yesterday afternoon at which time nearly 300 tickets were reported sold. The Women's Federated clubs have agreed to sell 750 season tickets and they feel sure of success.

Last year's Chautauqua was well attended, and by unanimous vote the large audience on the fifth night of the week's program decided in favor of a 1916 program. A large number of people signed pledge cards agreeing to buy 1916 tickets. Many of these people have not as yet been seen.

You are surely earning your own tickets by your work this hot weather, or words to that effect, was the remark made to many of the solicitors, who were at work yesterday, the impression being that the women having the sale in charge obtain their own admission tickets without charge. The fact is, every solicitor pays for her own ticket in cash.

For the convenience of the public season tickets have been placed on sale at the Y. M. C. A., Y. W. C. A., Hall's drug store and at T. J. Evans' drug store. They may be secured there at the special advance rate of \$2 for adults, \$1 for children. When the date of the Chautauqua arrives the price will be advanced to \$2.50.

The Chautauqua will be held Aug. 1 to 8, inclusive (Sunday excepted), in the lot adjoining the Hudson avenue school. The program promises unusual interest and value. The club women of Newark are doing a splendid work in bringing a series of high class entertainments to the city, and offering the program at the price of \$2. The tickets should sell rapidly.

GREEK ROYALTY'S NARROW ESCAPE; CHATEAU BURNS.

(Associated Press Telegram)
London, July 14, 8:40 a. m.—The royal chateau at Tatoi, Greece, occupied as the summer residence of King Constantine, has been destroyed by fire, says a Reuter dispatch from Athens. The King, Queen Sophie and members of the royal family, escaped and took refuge with Prince Nicholas at his home in Kephissia. The fire started in the forest near the chateau and spread to that building and to the adjoining barracks of the rural police which were destroyed. Several lives, including those of officers, were lost in the burning of the barracks.

FOUND DEAD IN BOX-CAR.
Bellaire, July 14.—Word was received here today that Harry Dorff, 25, of this city, had been found dead in a box-car at Waverly. It is thought he starved to death, as the car was locked and had been on the road for many days. The coroner at Waverly said Dorff had been dead about twelve days.

IS YOUR HEALTH WORTH \$5.00?

Woman Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache or bearing-down pains, need the tonic-strengthening properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

DAVIES SALE BEGINS JULY 15

EVENT HAS BEEN ADVERTISED IN A THOROUGH WAY BY THIS POPULAR STORE.

In an interview this morning Mr. Davies tells why he is offering special values.

The annual July clearance sale of the T. L. Davies store begins tomorrow and continues two weeks.

Mr. Davies states that this will be the greatest sale ever held by the store. He accounts for it in this manner: "Most people are fully aware of present market conditions. Prices have advanced from 25 to 50 per cent on nearly all lines of merchandise. In order to protect ourselves from the higher prices we were forced to place a large part of our fall orders this spring. Much of this goods is now coming in and in order to make room for it we must dispose of all remaining summer merchandise."

Mr. Davies further states that by buying his fall goods early he will be able to protect his customers from the advanced prices, which are sure to prevail the coming season. This sale has been advertised in a thorough manner. Aside from the space used in the newspapers, the Advocate printed 10,000 large circulars which were distributed throughout Newark and Licking county. Results are bound to be out of the ordinary as everyone has faith in the Davies advertising.

Many extra salespeople have been engaged so no long and tiresome waits will be necessary.

ELKS CONTRIBUTE \$11,500 TO HOSPITAL

Columbus, July 14.—A certified check for \$11,500 was presented to the board of managers of the Children's Hospital yesterday morning at its regular meeting by John G. Price, exalted ruler of the Columbus Lodge of Elks.

This sum represented one-half of the profits arising from the carnival held at the Elks' clubhouse the first week in June.

The sum brings the total available hospital funds past the \$150,000 mark and enables the hospital to begin work on its new home as soon as a site has been chosen.

A vote is being taken among all those interested in the hospital work whether a new structure shall be built on the premises south of Franklin Park, or whether a new location is to be purchased.

The Spanish Government is planning to build an electric railroad from Madrid to the French frontier to connect with French lines.

SAYS ENLARGED RHEUMATIC JOINTS DISAPPEAR UNDER TREATMENT

Advices Joints Be Kept Warm—Protect Hands From Cold Winds and Cold Water

The question has often been asked whether the misshapen finger joints due to rheumatism would return to normal, said W. A. Varney, the discoverer of Var-ne-sis.

ONE FORM OF RHEUMATISM VAR-NE-SIS TAKES CARE OF

I am going to answer this question by producing evidence that proves conclusively that they do. I want to suggest that it is important to keep the joints warm and protect the hands from cold winds and water.

Take the case of Mr. Holden whose fingers were bent and deformed—to see him today you could not believe he ever had rheumatism. Again, Mrs. Breed's fingers were actually useless, they were so stiff and deformed—she is well today, fingers perfect. Mrs. McMaster is another woman who retained the use of her fingers, as well as other joints through Var-ne-sis. Mrs. Coyle's fingers were almost rigid—they have gone back to normal. Mr. Nelson's fingers were deformed to a marked degree—you'd never believe he had rheumatism. Nurse Nightingale's fingers were crooked and deformed—they are now normal and she gives all the credit to Var-ne-sis.

Hundreds have told me that Var-ne-sis has been the means of their crooked and deformed joints returning to nothing. In this form of

rheumatism not only are the hands misshapen but other joints gradually become involved.

The disease may remain quiet for awhile, but there will be acute symptoms from time to time—enough in the early cases to remind you that the disease is creeping to other points. If neglected, the fingers become so stiff that it will be impossible to open or close the hand, the knees draw up in the extreme cases and the patient is often helpless.

Physicians will tell you that they can do nothing for this disease, and it is the same form of rheumatism that Var-ne-sis has been so successful in.

No other preparation produces such evidence. Why? A description of the above cases will be sent by addressing W. A. Varney, Lynn, Mass.

Var-ne-sis is a simple vegetable preparation and does not contain the ordinary drugs so often given for rheumatism.

Get Var-ne-sis Now—today—at R. W. Smith, Druggist, and all reliable druggists.—Adv.

Every Woman Should Use Every Week Shampoo

To Preserve Her Hair

If women would use an Anti-Septic Oil Shampoo instead of the soaps and shampoos now so commonly used, they would improve rather than injure the delicate hair plants.

The hair plant is an oil plant and to wash it with soaps or shampoos containing free alkali works great injury. It not only cuts the natural oil of the hair but it destroys the fatty roots of the hair plant causing the hair to come out.

EVERY WEEK ANTI-SEPTIC OIL SHAMPOO cleanses and purifies the scalp dissolves and removes dandruff, opens the clogged hair-cells and leaves the scalp soft and healthy.

It leaves the hair soft, lustrous, fluffy and easy to handle.

Excellent for men and children also.

AUTO TAGS WILL NOT BE MADE BY PEN PRISONERS

(Associated Press Telegram)

Columbus, July 14.—State officials today doubted whether the Board of Administration, through penitentiary labor, will make the 1917 automobile tags as had previously been tentatively arranged between the board and Secretary of State C. Q. Hildebrandt.

Chairman C. C. Philbrick of the administration board told Hildebrandt unofficially that the board members doubt whether the expense of installing the necessary machinery to make auto tags will be justified inasmuch as it is found that not more than 10 to 25 men could be given employment at this work. The penitentiary prefers work that requires many men.

The primary aim of the penitentiary in manufacturing articles for the state always is to furnish work to as many prisoners as possible. Definite action on the proposition likely will be taken soon by the board of administration. Hildebrandt has numerous bids from private contractors, but has deferred opening them until the administration board decides as to its course of action.

SHOTGUN FIRED AT TRAIN AND SEVERAL HURT

(Associated Press Telegram)
Pittsburgh, July 14.—It became known here today from official reports received by the Pennsylvania company that four passengers on the Chicago-New York train No. 28, known as the Broadway limited, had been wounded by shots fired at the train near Bucyrus, O., last night. The wounded are:
R. J. Ward, Pittsburgh.
H. P. Gillette, Philadelphia.
Keller Newman, New Orleans.
Bertha Gosweller, New Orleans.
The passengers were sitting on the observation platform of the last car when a man fired a shotgun as the train passed. Two shots were fired and the scattering missiles struck the injured passengers in the leg. A physician boarded the train at Lima, O., and after dressing the wounds said none of the injured was in danger.

TANLAC FAITH

Wm. E. Priest Says Pains in Sides, Back and Chest Have Entirely Disappeared.

Amusements

Alhambra, Tonight and Tomorrow. Pauline Frederick, whose splendid dramatic performances in previous Famous Players productions has won her the undisputed title "Frederick the Great," does the most tremendous work of her distinguished career in that company's adaptation of E. Phillips Oppenheim's celebrated novel, "The World's Great Snare," which is the Paramount Picture at the Alhambra.

The Auditorium. Manager Fenberg announces to Auditorium patrons that there will be no advance in prices today for the engagement of Theda Bara in "East Lynne." This attraction has packed theaters from pit to dome wherever it has been shown.

When an actress who has been through the mill of dramas, and at that played scores of emotional parts, falls to weeping at the sheer strength of the role she acts, it is high time to take notice. This was done by Theda Bara, the "vampire woman" of filmland, when she had completed her work in the all-star cast of "East Lynne," a modern revival in picture play form of the many years stage favorite.

"After I had finished my parts from day to day," said Miss Bara after the pictures were completed, "it seemed that I simply could not keep the tears back. And I do not cry easily as most women. Tears are rarer than black pearls with me."

"It seemed that the plot of 'East Lynne,' at least as we interpreted it for the camera, was the most powerful thing I have done. And everybody knows that my parts have not been weak ones, when it comes to emotional roles."

POLICE STUNG TO ACTION, ARRESTED WOMEN ANNOYERS.

Cleveland, July 14.—Stung to action by criticism against them as the result of recent park outrages on women, police today announced that they had arrested two more men who annoyed women and children on Wade park and one in public square. The arrest of these two, coupled with the arrest of Charles Smith, 23, negro, who is accused of attacking three women Thursday, makes three men now locked up on serious charges.

Police Inspector Norman Shattuck has been placed in charge of the park squads in an effort to curb the park crimes.

YOUNG PEOPLE'S LEAGUE.

(Associated Press Telegram)
Indianapolis, July 14.—The following officers for the ensuing year were elected at the closing session of the annual convention of the Evangelical Young People's League here last night: President, Rev. Theodore Haefle of Louisville, Ky.; vice president, Rev. G. S. Gerhold of Hamilton, O.; secretary, Miss Anne Rahe of Indianapolis; treasurer, Mrs. John Stieritz of Cincinnati and mission secretary-treasurer, John Andres, Evansville, Ind.

COACHES COMMENCE PREPARATIONS FOR FOOTBALL SEASON

(Associated Press Telegram)
New York, July 14.—Although another two months must elapse before the candidates for the Eastern varsity football teams begin to assemble for gridiron practice, coaches and managers are already preparing for the coming platoon campaign. Footballs are being distributed among the players for use during the vacation period and those who will have charge of the squads are taking stock of the material for big autumn drives on time scored fields.

In the case of at least two of the big university squads this preliminary activity is necessary as the result of complete changes in the coaching system and personnel for the coming season. Both Pennsylvania and Yale will enter the football arena this fall with a new coaching corps in charge of the teams and the playing of the eleven under these mentors will be watched with more than usual interest by both those affiliated with these universities and the general football fan.

DILLON BESTED BY LEVINSKY AT BALTIMORE, MD.

Baltimore, July 14.—Jack Dillon of Indianapolis and Battling Levinsky of New York, both heavyweights, fought a 10-round no-decision bout at Oriole Park here yesterday. The New Yorker outpointed the Hoosier in all but the first and sixth rounds, in which Dillon had a shade the better of it, and the fourth, which was even.
Dillon was originally intended to go 15 rounds to a decision, but the comparatively small attendance brought about a lengthy discussion between the promoters and the promoters, which resulted in a compromise. It was announced that fighters had waived their guarantee and agreed upon a 10-round exhibition with no decision.

WORLD'S SHOOTING RECORD.

(Associated Press Telegram)
Peru, Ind., July 14.—A new world's record was set yesterday afternoon by C. A. Young of Springfield, Ohio, at the Hoosier classic shoot when he broke 100 consecutive targets at a distance of 22 yards. The shoot was on the grounds of the Peru Gun Club. The previous world's record was 98 at a distance of 22 yards.

HEISEY DIAMOND H TO UTICA. The Heisey baseball team will go to Utica today to play the last team of that city. It is the first time they have met this season and a good fast game is expected.

VETERAN DRIVER IS RECOVERING.

(Associated Press Telegram)
Cleveland, July 14.—Ed F. Geers, veteran grand circuit driver and trainer, who was badly hurt here yesterday when thrown under the heels of a horse on the North Randall track, passed a comfortable night at the hospital where he is convalescing and was reported in good condition today. He will be confined to bed for a few days but his condition is not regarded as serious, though it is doubtful whether he will be able to do any racing at the opening of the grand circuit here next week.

FELL FROM HAYLOFT; DEAD.

(Associated Press Telegram)
Chardon, O., July 14.—Frank Inman, 35, was found dead in a barn on his farm in Chester township this morning by his mother. Bruises on his head indicated he had fallen from the hay loft.

Some cigarettes may be mild, but they don't satisfy.

BUT—Chesterfields satisfy, yet they're mild!

This is a new kind of enjoyment for a cigarette to give. It is something that no cigarette, except Chesterfields can give you, regardless of price.

Why?

Because no cigarette maker can copy the Chesterfield blend!
